Effective

Franklin County Animal Control Ordinance

ARTICLE I

Section 1-1 - Definitions

County Animal Shelter

Any premises designated by Franklin County for the purpose of impounding and caring for animals that are either found to be at-large, to be wandering stray, or that are otherwise subject to impoundment in accordance with the provisions of this ordinance.

Animal

Includes every living vertebrae in the classes Amphibia, Reptilia, Aves, and Mammalia except for humans.

At-large

Off of the owner's property and not under the control of the owner, or another individual, either by leash, cord, chain, or other means of restraint. Dogs are not considered to be at-large when they are in the course of assisting persons who are lawfully hunting.

Bite

The act of an animal seizing flesh with its teeth or jaws or beak so as to tear, pierce, or otherwise injure the flesh.

Dangerous Animal

(1) Any animal that, without sufficient provocation, bites, attacks, or inflicts serious injury on a human regardless of whether said human is on public or private property. Sufficient provocation includes, but is not limited to, the bitten, attacked, or seriously injured human taunting, tormenting, or abusing the animal at any time prior to said human being bitten, attacked, or seriously injured.

OR

(2) Any animal that, without sufficient provocation, bites, attacks, or inflicts serious injury on a pet or domestic animal. Sufficient provocation includes, but is not limited to, (a) the pet or domestic animal being on the property of the owner of the animal biting, attacking, or seriously injuring such pet or domestic animal, or (b) the pet or domestic animal posing a reasonable threat to the progeny of the animal biting, attacking, or seriously injuring such pet or domestic animal.

Dangerous animals must be so designated by the Franklin County Animal Control Director after he or she has been presented with sufficient evidence to so designate. Such designation includes, but is not limited to, a determination of whether there has been sufficient provocation.

A dangerous animal that is also a dog (i.e., a dangerous dog) may be treated differently under this ordinance than other dangerous animals that are not also dogs.

Dealer

Any person who is licensed by the U.S. Department of Agriculture as a dealer.

Domestic Animal

Any of various animals that, in North Carolina, normally and customarily live on private property and normally and customarily depend on humans to willingly provide them with food and shelter. Such animals include, but are not limited to, cats, dogs, bovines, horses, swine, fowl, sheep, and goats.

Exhibitor

Any person who is licensed by the U.S. Department of Agriculture as an exhibitor.

Exposed to Rabies

An animal shall be considered to have been exposed to rabies when such animal is reasonably suspected of being exposed to the saliva or nervous tissue of a proven rabid animal or an animal reasonably suspected of having rabies.

Exotic Animal

Unless such animal is included in the definition of domestic animal or the definition of inherently dangerous mammal, an exotic animal is any animal that is not indigenous to North Carolina and is either a carnivore, primate, or poisonous snake or other venomous animal.

Humane Destruction

(1) Any animal is humanely destroyed if it receives an intravenous injection of sodium pentobarbital; (2) if the animal is a cat, kitten, or puppy, it is humanely destroyed if it receives an intraperitoneal injection of sodium pentobarbital; (3) if the animal is unconscious or deeply anesthetized, it is humanely destroyed if it receives an intracardiac injection of sodium pentobarbital; (4) any dog is humanely destroyed if it receives either an intravenous injection, or an intracardiac injection as long as the dog is unconscious or deeply anesthetized, of Beuthanasia-D; and (5) any animal is humanely destroyed if it receives carbon monoxide by commercially compressed cylinder gas in a chamber that (i) has been commercially manufactured for carbon monoxide euthanasia, (ii) allows for

the individual separation of animals and such separation is adhered to, and (iii) has been properly maintained.

Inherently Dangerous Mammal

Any live member of the canidae, felidae, or unsiidae families, including hybrids thereof, which, due to their inherent nature, may be considered dangerous to humans and that include:

1. Canidae: including any member of the dog family not customarily domesticated by man, or any hybrids that are a cross between a wolf and a domestic dog, but not including domestic dogs (i.e., canis familiaris).
2. Felidae: including any member of the cat family weighing over (15) fifteen pounds not customarily domesticated by man, or any hybrids thereof, but not including domestic cats (i.e., felis catus).
3. Unsiidae: including any member of the bear family, or any hybrids thereof.

Kennel, Dealer, or Breeder

Any person, group of persons, firm, partnership, or corporation engaged in buying, selling, breeding, or boarding animals.

Neutered

Any male animal that has been successfully operated upon to prevent reproduction.

Owner

Any person, group of persons, firm, partnership, or corporation that, either customarily or temporarily, owns, keeps, has charge of, shelters, feeds, harbors, or takes care of any animal. The owner is responsible for the care, actions, and behavior of the owner's animal(s). In the event that the owner of an animal is younger than (18) eighteen-years old, the parent or guardian of such owner shall be held liable for non-compliance with the provisions of this ordinance.

Owner's Property

That area described in a deed of conveyance or the area described in a lease. In a situation involving town homes or condominiums, the Franklin County Animal Control Director will treat the common areas as being owned by the homeowner's association. In a situation involving leased apartments, the Franklin County Animal Control Director will treat the common areas as being owned by the lessor/property

owner. A motor vehicle is not part of the owner's property unless it is physically located on the area described in a deed of conveyance or the area described in a lease. A motor vehicle that is physically located in or on the common areas of town homes, condominiums, or leased apartments, or other public areas shall be treated as being off of the owner's property.

Pet

Any animal that is (i) of a type of animal generally considered to be a companion of humans and (ii) that has been domesticated. This definition does not exclude those domesticated animals kept for both companionship and utility. Note that it is not necessary for an animal to be a domestic animal to be a pet; rather, it is necessary that it be domesticated.

Restraint

An animal is under restraint within the meaning of this ordinance if it is (1) controlled by means of a chain, leash, or other like device; (2) within a vehicle being driven or parked; (3) within a secure enclosure; or (4) within the residence of the owner.

Secure Enclosure

A humane enclosure suitable to prevent the enclosed animal from escaping and to prevent the entry of persons younger than (8) eight-years old. In order to be deemed humane, such enclosure must remain dry inside, be ventilated, promote the retention of body heat, and have sufficient room for the enclosed animal to turn around freely and lie down comfortably. For purposes of this definition, a home, mobile home, and separate garage are not secure enclosures.

Spayed

Any female animal that has been successfully operated upon to prevent conception.

Wandering Stray

Any animal that is not wearing a valid rabies vaccination tag as required by North Carolina state law or by this ordinance, or any animal that is both not under restraint and that appears homeless or unwanted.

Section 1-2 – Basis and Authority of the Animal Control Director

The Animal Control Director of Franklin County, hereinafter referred to as the Animal Control Director, shall be responsible for the enforcement of the provisions of this ordinance. North Carolina General Statutes 130A-184 through 130A-200 designate the

County Health Director as the local official responsible for rabies control. The Franklin County Board of Commissioners, hereinafter referred to as the Board of Commissioners, has appointed the Animal Control Director as the local official responsible for dangerous dogs in the county, as prescribed by North Carolina General Statutes 67-1 through 67-32. The Animal Control Director has been appointed by the Board of Commissioners as the Animal Cruelty Investigator pursuant to North Carolina General Statutes 19A-45 through 19A-47.

The basis for this ordinance lies within the inherent responsibilities and authority granted by those General Statutes listed. And as inherent under North Carolina General Statutes 130A-39, this ordinance also contains items specific to Franklin County that the Board of Health has identified as having significant effect on the public health.

- A. The Animal Control Director shall be under the immediate supervision of the County Manager.
- B. Employees or agents enforcing this ordinance shall be designated as Animal Control Officers, and such employees or agents shall be subject to the Franklin County Personnel Policy. In the performance of their duties, Animal Control Officers shall have all the powers, authority, and immunity granted under this ordinance and by the General Statutes of North Carolina.

Section 1-3 – General Duties of the Animal Control Director

- A. The Animal Control Director shall be charged with the responsibility of:
 - 1. Enforcing in Franklin County all state and county laws, ordinances, and resolutions relating to the care, custody, and control of animals.
 - 2. Assisting in the enforcement of the laws of the state with regard to animals and especially with regard to vaccination of animals against rabies and the confinement or controlling of dangerous animals (e.g., dangerous dogs).
 - 3. Investigating cruelty, abuse, or neglect with regard to animals.
 - 4. Making such canvasses of Franklin County as it deems necessary for the purpose of ascertaining that all animals are vaccinated against rabies as required by local ordinance or State statute.
 - 5. Operating, pursuant to policies of the Franklin County Board of Commissioners, the County Animal Shelter.
- B. It shall be the duty of the Animal Control Director to keep, or cause to be kept, accurate and detailed records of:

1. Impoundment and disposition of all animals coming into a County Animal Shelter.
2. Bite cases, which include violations, complaints, and investigations of animal bites.
3. All monies belonging to Franklin County which were derived from impoundment fees, penalties, and sales or adoptions of animals.
4. All other records deemed necessary.

Section 1-4 – Exemptions from Director Authority and Responsibility

- A. **Dead Animals:** The Animal Control Director has legal responsibility and authority to prevent the occurrence and spread of rabies. The Animal Control Director does not deal with dead animals except when called upon to investigate allegations of cruelty to animals under section 1-6 of this ordinance. Thus, Animal Control Officers should not be called upon to deal with dead animals unless the threat of rabies exists or an allegation of animal cruelty has been made.
- B. **Wildlife:** Instances involving wildlife that are not governed by this ordinance should be referred to local wildlife officials. The Animal Control Director may assist wildlife officials in actual or suspected cases of rabies.
- C. **Animals on Roads and Road Right-of-Ways:** The Animal Control Director is not responsible for dead animals on roads or road right-of-ways. The State Highway Patrol and Department of Transportation, with responsibility of maintaining/assuring traffic flow on roads and their right-of-ways, should be called when animals affect this traffic flow.
- D. **Animals from other Municipalities:** Municipalities with their own ordinances are responsible for their own enforcement of such ordinances. Nonetheless, animals from other municipalities caught or entrapped within Franklin County by appropriate Franklin County personnel may be taken to a County Animal Shelter, at which time the animal will be treated as other animals are under this ordinance. At the point of surrender, the appropriate Franklin County personnel giving the animal to an Animal Control Officer or directly to a County Animal Shelter may be considered the owner of the animal. The animal will be kept at a County Animal Shelter as provided in this ordinance. Animals not claimed within (3) three days may be adopted out or humanely destroyed. The (3) three-day waiting period commences when the animal is turned over to a County Animal Shelter and shall be suspended during those days that the County Animal Shelter holding the animal is closed.

Section 1-5 – Power and Authority of Animal Control Officers

- A. Inspections. Whenever it is necessary to make an inspection to enforce any of the provisions of this ordinance, or other applicable law, or whenever an Animal Control Officer has reasonable cause to believe that there exists in any building or upon any premises any violation of this ordinance or other applicable law, an Animal Control Officer is empowered to enter and inspect such property at any reasonable time and perform any duty imposed upon him or her by this ordinance or other applicable law, but only if the consent of the owner or occupant of the property is freely given or an administrative search warrant or criminal search warrant is obtained.
1. At any time, an Animal Control Officer may obtain an appropriate warrant to conduct a search or inspection of the property, or seizure on the property.
 2. If an Animal Control Officer has not obtained an appropriate warrant, the Animal Control Officer may conduct a search or inspection of the property, or seizure on the property if the Animal Control Officer presents credentials to the owner or occupant of the property, requests entry, explains the reason(s) for requesting entry, and entry is granted by the owner or occupant.

Notwithstanding any other provision of this ordinance, an Animal Control Officer shall have the authority to enter upon any land to enforce the provisions of this ordinance or other applicable law if a violation of this ordinance or such law is being committed in the presence of the Animal Control Officer and requires immediate action on the part of the Animal Control Officer to protect the health or safety of the animal or the public. In the case of any animal that is at-large, wandering stray or exposed to rabies, so long as the animal is within sight of the Animal Control Officer, this section shall not be interpreted to require that a warrant be obtained before seizing the animal.

- B. Interference. It shall be unlawful for any person to interfere with, hinder, molest, resist, or obstruct an Animal Control Officer while he or she is carrying out any duty created under this ordinance or other applicable law.
- C. Concealment of an animal. It shall be unlawful for any person to conceal, for the purpose of evading the licensing requirement, permit requirement, rabies inoculation requirement, or other requirements of this ordinance or any applicable law, any unlicensed, un-inoculated, non-permitted, or other unlawful animal from any Animal Control Officer.
- D. Concealment of a license, permit, or rabies inoculation. It shall be unlawful for any person to refuse to show proof of a license, permit, or a rabies inoculation to any Animal Control Officer upon request.
- E. Unauthorized release. It shall be unlawful for any person to seek to release, attempt to release, or to release any animal in the custody of Animal Control Officers or, generally, in the custody of a County Animal Shelter, except as otherwise specifically

provided in this ordinance. An animal captured in a trap set by Animal Control Officers shall be deemed to be in the custody of the Animal Control Director.

- F. This section in no way restricts the power or authority granted to Animal Control Officers in other sections of this ordinance.

Section 1-6 – Cruelty to Animals

A. It shall be unlawful for any person to torture, torment, cruelly beat, cruelly molest, needlessly mutilate, needlessly wound, needlessly injure, needlessly poison, needlessly abandon, needlessly kill, or needlessly subject to conditions detrimental to its health or general welfare any animal. Every such offender shall be guilty of a Class 1 Misdemeanor.

B. It shall be unlawful for the owner of an animal to fail or refuse to provide such animal with adequate food and water. Every such offender shall be guilty of a Class 1 Misdemeanor.

C. As used in this section, “torture,” “torment,” and “cruelly” include or refer to any act, omission, or neglect causing or permitting unjustifiable pain, suffering, or death. As used in this section, “needlessly” means without justifiable excuse and the justification shall be based on a reasonable owner standard. As used in this section, “adequate food” means the provision at suitable intervals, not to exceed (24) twenty-four hours, of a quantity of wholesome foodstuff suitable for the species and age, and sufficient to maintain a reasonable level of nutrition in each animal. As used in this section, “adequate water” means the provision of, or ready access to, a supply of clean, fresh, potable water provided in a sanitary manner (24) twenty-four hours a day.

Section 1-7 – Animals At-Large and Wandering Stray

- A. It shall be unlawful for the owner of an animal to permit such animal to be wandering stray and to be at-large.

The Animal Control Director may confiscate any animal found to be wandering stray and to be at-large and impound such animal at a County Animal Shelter in accordance with the provisions of article III or section 2-5 of article II.

- B. The owner of an animal may lawfully permit such animal, unless such animal is a dangerous animal, to be at-large in the course of a show, obedience school, tracking test, field training, or other event sanctioned or supervised by an organization approved by the Animal Control Director. This provision does not exempt an owner from otherwise complying with section 2-3 or any other provision of this ordinance.
- C. The owner of an animal who permits such animal to be wandering stray and to be at-large must pay a civil penalty of:

1. First Violation – \$0.00 plus boarding fee
 2. Second Violation – \$25.00 plus boarding fee
 3. Third Violation – \$50.00 plus boarding fee
 4. Fourth Violation – the animal becomes the property of the Animal Control Director for adoption or humane destruction.
- D. The boarding fee shall be set each year in the Budget Ordinance and may be subject to change each year by action of the Board of Commissioners.
- E. Successive violations depend on a particular owner, not on a particular animal. By way of illustration, assume owner X permits dog A to be wandering stray and to be at-large. Owner X will be issued a citation for a first violation. Later, owner X permits dog B to be wandering stray and to be at-large. Owner X will be issued a citation for a second violation.
- F. Said penalty must be paid within (3) three days of the issuance of a citation for violation of this section.

Section 1-8 – Animals Creating Nuisance

- A. It shall be unlawful for any owner to keep, possess, or maintain an animal in such a manner so as to allow such animal to engage in any prohibited act as set out hereinafter.
- B. The actions of an animal constitute a prohibited act when such animal disturbs the personal property rights of, threatens the safety of, or damages a member of the general public. However, barking dogs, regardless of the manner or repetition of the barking, are not engaging in a prohibited act solely due to their barking. By way of example and not of limitation, the following acts or actions by an owner are deemed to allow the owner's animal to engage in a prohibited act and are therefore unlawful.
1. Keeping, possessing, or maintaining an animal that habitually causes damage to real or personal property such as gardens, dwellings, or parts thereof.
 2. Failing to confine to a secure enclosure or building a female dog while in estrus.
 3. Keeping, possessing, or maintaining an animal that repeatedly or persistently chases, snaps at, or otherwise molests pedestrians, bicyclists, motor-vehicle passengers, or domestic animals or pets.
 4. Keeping, possessing, or maintaining an animal that habitually or continually loiters about public places.

5. Keeping, possessing, or maintaining an animal that is diseased and dangerous to the health of the public. If such animal is under the care of a licensed veterinarian, an owner does not violate this section.

Section 1-9 – Confinement and Control of Inherently Dangerous Mammals

A. It shall be unlawful for any owner to keep an inherently dangerous mammal within Franklin County.

B. Exemptions:

The following parties shall be exempt from this ordinance:

1. Traveling fairs, circuses, and carnivals provided that such fair, circus, or carnival is granted approval by the Animal Control Director to bring the inherently dangerous mammal into Franklin County, and the inherently dangerous mammal is not located in Franklin County for a period exceeding (10) ten days. This exemption shall apply only for a single (10) ten-day period per every (365) three-hundred-and-sixty-five days.
2. Any zoo or other public exhibition provided that such zoo or public exhibition has previously applied for and has been granted the appropriate permit under Franklin County's Land Use Ordinance.

C. Recapturing

The owner of any inherently dangerous mammal that has escaped the custody of the owner while within Franklin County, or has escaped elsewhere and has entered Franklin County, shall reimburse Franklin County for all costs incurred by Franklin County while attempting to recapture the escaped inherently dangerous mammal. If the animal is sheltered or humanely destroyed by Franklin County, the owner shall also pay for all costs incurred.

Section 1-10 Confinement and Control of Exotic Animals

- A. It shall be unlawful for any owner to keep any exotic animal within Franklin County unless (i) it is confined within a secure enclosure approved by the Animal Control Director or (ii) it is being transported to receive veterinary care, to be sold, or to be humanely destroyed and it is securely muzzled and under restraint by a competent person who by means of a leash, chain, rope, or other device suitable to adequately restrain the particular animal, has such animal firmly under control at all times.
- B. Any exotic animal that is not properly confined within a secure enclosure or secured or restrained as required by section 1-10A of this article, or that has injured or endangered

any person, domestic animal, or pet may be confiscated and/or impounded at the owner's expense.

C. Recapturing

The owner of any exotic animal that has escaped the custody of the owner while within Franklin County, or has escaped elsewhere and has entered Franklin County, shall reimburse Franklin County for all costs incurred by Franklin County while attempting to recapture the escaped exotic animal. If the animal is sheltered or humanely destroyed by Franklin County, the owner shall also pay for all costs incurred..

Section 1-11 – Required Notification to Animal Control Director by the Owner of a Potentially Dangerous Animal

It is unlawful for an owner to fail to inform the Animal Control Director as soon as practicable but no later than (24) twenty-four hours after the owner is apprised of any information from which a reasonable person would determine that any of the following has occurred:

1. The owner's animal has bitten, attacked, or inflicted serious injury on a human regardless of whether said human is on public or private property
2. The owner's animal has bitten, attacked, or inflicted serious injury on a domestic animal or pet.
3. The owner's animal, when such animal is required by this ordinance to be restrained or confined to a secure enclosure, is at-large.

Compliance with this section does not exempt an owner from the requirements of sections 2-5 and 2-9 of article II.

Section 1-12 – Confinement, Control, and Designation of Dangerous Animals

- A. It is unlawful for any owner of an animal designated as dangerous by the Animal Control Director to not confine or restrain such animal in accordance with this section.
- B. After an investigation of a dangerous animal complaint is completed by an Animal Control Officer, and there is evidence to support such a finding, said animal may be designated as dangerous by the Animal Control Director. If said animal is designated as dangerous by the Animal Control Director, the owner will be notified in writing to confine the animal in a secure enclosure. The owner must post a plainly visible sign upon the secure enclosure warning that a dangerous animal is on the premises. Said sign shall be no smaller than one foot by two feet or two square feet in area, and said

sign shall read: “Warning! Dangerous Animal on Premises” in letters legible to a person of ordinary vision from (20) twenty feet.

- C. The owner shall have (30) thirty days from the date of written notification to provide the secure enclosure described in section 1-12B of this article, such secure enclosure must be approved by an Animal Control Officer. The dangerous animal must be under constant restraint on the owner’s property during this period until it can be confined in the approved section 1-12B secure enclosure, unless the dangerous animal is confiscated by an Animal Control Officer for purposes of section 2-5 of article II or any other provision of this ordinance.
- D. An Animal Control Officer is empowered to confiscate the dangerous animal and harbor it at the owner’s expense pending the owner’s construction of a secure enclosure. If a dangerous animal is confiscated under this provision, the owner of the dangerous animal shall be given written notice at the time of confiscation. Such written notice shall state that if the owner fails to provide an approved section 1-12B secure enclosure before the expiration of (30) thirty days from confiscation, the Animal Control Director is authorized to have the animal humanely destroyed. If the owner constructs an approved section 1-12B secure enclosure, the animal may be redeemed within (30) thirty days from confiscation so long as all fees owed to the Animal Control Director for harboring, caring, and/or maintaining the dangerous animal are paid and the animal was not humanely destroyed under article II.

Section 1-13 – Confiscation of Animals

Any animal not kept in accordance with the requirements of this article may be confiscated by an Animal Control Officer and impounded at a County Animal Shelter in accordance with the provisions of article III.

Section 1-14 – Dogs or other Animals Used for Sentry or Guard Duty

Any person owning, maintaining, or harboring a dog or other animal for sentry or guard purposes must register said dog or other animal with the Animal Control Director.

A sign warning that there is a guard or sentry animal on the premises must be displayed such that persons are made aware of the presence of a guard or sentry animal before they enter the property. Such sign shall specify what type of animal the guard or sentry animal is.

Section 1-15 – Law Enforcement Dogs Excluded

Any dog used by a law enforcement agency in the investigation of crimes or as necessary in the enforcement of the law shall be excluded from the purview of this ordinance except as to rabies regulations and enforcement.

ARTICLE II - RABIES CONTROL

Section 2-1 – Compliance with State Law, Article as Supplement to State Law

- A. It shall be unlawful for any animal owner or other person to fail to comply with the state laws relating to the control of rabies.
- B. It is the purpose of this article to supplement the state laws by providing a procedure for the enforcement of state laws, in addition to the criminal penalties provided by state law, relating to rabies control.

Section 2-2 – Inoculation of Dogs, Cats, and other Pets

- A. It shall be unlawful for an owner to fail to provide current inoculation against rabies for any of the owner's dog(s) and cat(s) that are (4) four months of age or older. Should it be deemed necessary by the County Health Director, the Board Commissioners, the Board of Health, or the State Public Health Veterinarian that other animals be inoculated in order to prevent a threatened epidemic or to control an existing epidemic, it shall be unlawful for an owner to fail to provide current inoculation against rabies for that animal.
- B. A rabies inoculation shall be deemed "current" for a dog and cat if two inoculations have been given within a (12) twelve-month period and adequate booster doses of a rabies vaccine are given thereafter.
- C. Only rabies vaccinations administered by a licensed veterinarian or certified rabies vaccinator are considered to adequately vaccinate an animal against rabies. Owner-administered vaccines do not satisfy this requirement unless such owner is a licensed veterinarian or a certified rabies vaccinator.

Section 2-3 Inoculation Tag

- A. Upon complying with section 2-2 of this article, there shall be issued to the owner of the animal inoculated a metallic tag that will be stamped with its number, the year the tag was issued, the initials "N.C." or the words "North Carolina," and the words "rabies vaccine."
- B. It shall be unlawful for any dog owner to fail to provide the dog with a collar or harness to which a current tag issued under this section is securely attached. The collar or harness, with attached tag, must be worn at all times, except during the time the dog is performing in the course of a show, obedience school, tracking test, field training, or other event sanctioned or supervised by an organization approved by the Animal Control Director.
- C. It shall be unlawful for any person to use for any animal a rabies inoculation tag issued for an animal other than the one for which the tag was issued.

Section 2-4 – Evidence of Vaccination of Cats

Cats are not required to wear the metallic tag referred to in section 2-3A of this article, but the owner of a cat must maintain the rabies vaccination certificate(s) as written evidence to prove that the cat has a current rabies inoculation.

Section 2-5 – Report and Confinement of Animals Biting Persons or otherwise Showing Symptoms of Rabies

- A. Every dog or cat that has bitten any human or that otherwise shows symptoms of rabies must be confined immediately by its owner and must be promptly reported to the Animal Control Director, and thereupon shall be securely quarantined, at the direction of the Animal Control Director, for a period of (10) ten days, and shall not be released from such quarantine except by written permission from the Animal Control Director.
- B. Dogs and cats quarantined under this section shall be confined in a veterinary hospital, boarding kennel, or County Animal Shelter at the expense of the owner; provided, however, that if an Animal Control Officer determines that the owner of an animal that must be quarantined has adequate confinement facilities upon his or her property, an Animal Control Officer shall authorize the animal to be confined within such facilities. If the animal has been designated as dangerous, an Animal Control Officer cannot authorize the animal to be confined on the owner's property unless it is within an approved section 1-12B secure enclosure, and the animal is currently vaccinated against rabies. If the animal has not been designated as dangerous, an Animal Control Officer cannot authorize the animal to be confined on the owner's property unless the owner has a fenced-in area in his or her yard from which the animal cannot escape and the fenced-in area has no entrances or exits that are not locked, and the animal is currently vaccinated against rabies. Proof of rabies vaccination will be required at the time of investigation. If the animal is confined on the owner's property, an Animal Control Officer shall revisit the property for inspection purposes at approximately the middle of the confinement period and again at the conclusion of the confinement period.
- C. In the case of any dog or cat found to be wandering stray or at-large, the dog or cat may be harbored at a County Animal Shelter in accordance with section 2-5A of this article if such dog or cat shows symptoms of rabies. In such a case, the notice requirements of section 3-2 of article III apply. In the case of any dog or cat showing symptoms of rabies that is both found to be wandering stray and the ownership of such dog or cat cannot be determined, such dog or cat may be immediately humanely destroyed and the head of such dog or cat removed and taken to the State Laboratory of Public Health for rabies diagnosis.

- D. If rabies does not develop within (10) ten days after a dog or cat is quarantined under this section, the dog or cat may be released from quarantine with the written permission of the Animal Control Director. If the dog or cat has been confined in a County Animal Shelter, the owner must pay any necessary veterinarian fees and boarding fees as set by the Board of Commissioners.

Section 2-6 – Disposition of Animal Bitten or otherwise Exposed to a Rabid Animal

An animal shall be considered to have been exposed to rabies when such animal is reasonably suspected of being exposed to the saliva or nervous tissue of a proven rabid animal or an animal reasonably suspected of having rabies. Any animal exposed to rabies must be promptly reported to the Animal Control Director. Such animal shall be either immediately humanely destroyed by Franklin County or confined in accordance with section 2-5 of this article for a period of up to (6) six months. Any animal exposed to rabies that has been vaccinated against rabies in accordance with section 2-2 of this article more than (3) three weeks prior to being exposed, and is given a booster dose of a rabies vaccine by a licensed veterinarian or certified rabies vaccinator within (3) three days of being exposed, shall not be subject to the requirements of this section.

Section 2-7 – Area-Wide Emergency Quarantine

- A. When reports indicate a positive diagnosis of rabies, the County Health Director may order an area-wide quarantine for such period as he or she deems necessary. Upon invocation of such emergency quarantine, no dog, cat, or other carnivore may be off the owner's property unless secured within a vehicle that is transporting such dog, cat, or other carnivore to a County Animal Shelter or to receive veterinary care. During such quarantine, no dog, cat, or other carnivore may be taken or shipped from the county without written permission of the Animal Control Director, and the police and sheriff departments are hereby directed during such emergency to impound any dog, cat, or other carnivore found to be at-large or wandering stray in Franklin County. During the quarantine period, the Animal Control Director or local health authorities shall be empowered to provide for a program of mass immunization by the establishment of temporary emergency rabies vaccination facilities strategically located throughout Franklin County.
- B. In the event there are additional positive cases of rabies occurring during the period of quarantine, such period of quarantine may be extended at the discretion of the County Health Director.

Section 2-8 – Postmortem Diagnosis

- A. If any animal dies while under observation for rabies, the head of such animal shall be removed and taken to the State Laboratory of Public Health for rabies diagnosis.
- B. The carcass of any animal suspected of dying of rabies must be surrendered to the Animal Control Director. The head of such animal shall be removed and taken to the State Laboratory of Public Health for rabies diagnosis.

Section 2-9 – Unlawful Killing, Releasing, etc. of Certain Animals

It shall be unlawful for any person, without written permission from the Animal Control Director and the County Health Director, to remove from Franklin County, release, or kill any animal suspected of being exposed to rabies or any animal that has bitten a human or that otherwise shows symptoms of rabies.

Section 2-10 – Failure to Surrender Animal for Quarantine or Destruction

It shall be unlawful for any person to fail or refuse to surrender any animal for quarantine or humane destruction as required by this article when demand is made by an Animal Control Officer.

ARTICLE III - IMPOUNDMENT

Section 3-1 – Generally

Any animal found to be at-large, wandering stray, or that is otherwise subject to impoundment in accordance with the provisions of this ordinance shall be impounded at the direction of the Animal Control Director and confined in a County Animal Shelter in a humane manner. Impoundment of such an animal will not relieve the owner thereof from any penalty that may be imposed under this ordinance.

Section 3-2 – Notice to Owner

Immediately upon the impounding of an animal, reasonable efforts shall be made to notify the owner and inform such owner of the conditions whereby the animal may be redeemed. If the owner is unknown or cannot be located, notice of such impoundment shall be immediately posted on a bulletin board at a County Animal Shelter and remain posted for (3) three days, or until such time thereafter as the animal is humanely destroyed or adopted out. The notice shall include the time and place of the taking of such animal, together with the time and date of the posting of the notice. The (3) three-day notice period shall be suspended during those days that the County Animal Shelter holding the animal is closed.

Section 3-3 – Redemption by Owner Generally

- A.
